

Upgrade to the latest Windows 10 Release

Get all the latest features!

Twice a year Microsoft releases a new version of Windows 10 adding new features, fixes and improvements. Full release information can be found [here](#). To ensure that all Shared Services IT Windows systems have consistent feature sets available to end users, we are undergoing an effort to standardize our Windows install base. To upgrade your system, please click on the white W with the red background  in the system tray to bring up IBM BigFix Support Center. From BigFix Support Center, select Windows Upgrade to 1909 and click [Here](#) to accept offer and start the installation. Please note the installation can take an hour or more to run.

Restart Now

System needs a restart to complete the installs. The computer will restart several times during install and can take up to an hour to complete the process.

This action will require a system restart. This action will run automatically in 9 minutes.

The following applied action requires a reboot:
Windows Upgrade to 1909

Title	Deadline	
Restart Now	9 minutes from now
